INFORMATION FOR APPLICANT

- Any proposed construction of crossings or culverts may need to be undertaken outside of the irrigation season, or prior arrangements made with the Race Manager.
- The construction of bridge crossings and culverts over LWIC races must not in any way impede the race flows or disturb the integrity of race embankments.
- It is the responsibility of the landowner to ensure that any structure complies with Local body regulations.
- Any such structures will remain the property of the land owner and must be maintained in good condition.

Lower Waitaki Irrigation Company Ltd

YOU ARE REQUIRED TO PROVIDE:

- A plan of area clearly showing the location of proposed crossing(s) or structure(s).
- Full detailed drawings / plans and specifications of proposed construction.
- Engineering certificates must be supplied in the form of a PS1 prior to construction with a PS4 on completion from a qualified certifying engineer.
- Description of location and extent of work.
- Two weeks' notice must be given to the Race Manager prior to commencement of construction once this application has been approved.
